ABOUT THE CONFERENCE

The **Nigeria Nurses Charitable Association, UK (NNCAUK)** Annual Global Health Conference 2024 is a premier event bringing together nursing and midwifery professionals from across Nigeria, UK, Africa, and the world.

This year, we unite under the powerful theme: **Advancing Global Health: The Power of Nursing and Midwifery Leadership.**

The conference will serve as a platform to explore how nurses and midwives are driving global health improvements, leading in healthcare innovation, and shaping public health policies to address today's most pressing challenges.

This event provides a unique opportunity for attendees to engage with thought leaders, participate in discussions on cutting-edge practices, and collaborate on ways to enhance the global impact of nursing and midwifery.

This year's theme highlights the critical leadership roles that these professionals play in advancing global health. Whether responding to pandemics, addressing maternal and child health, or advocating for universal healthcare access, nurses and midwives are at the heart of the healthcare system's ability to deliver better outcomes.

This conference will focus on equipping nursing and midwifery leaders with the skills and tools necessary to advocate for global health equity, advance healthcare innovations, and strengthen healthcare systems worldwide.
